STANDARD WHETSTONE

# DEBADO デバド

A series of professional-grade non-water-absorbent whetstones, crafted with artisanal precision, one by one.

This series of whetstones offers a smooth sharpening experience with plenty of slurry, high grinding power, and durability, making them highly resistant to wear.

This non-absorbent whetstone is made using a unique manufacturing process that allows you to sharpen tools with just a small amount of water, and it's highly durable and resistant to wear!

\*Do not use anything other than water.

Can be sharpened with water.

Long-life

Resistant to wear

Includes surface restoration stone

( Fired grinding stones with no cracks or other defects )  
Includes a Nagra whetstone for cleaning and correcting the surface of the sharpening stone.

\* Nagra whetstones are not uniform in size.

\* The manufacturing process differs from that of the Gokumyo and DUAL series.

**MD** Three professional-grade models. Extra-large size for commercial use, making it easy to sharpen even long blades.  
Non-absorbent
